

HEYINGTON

Q&A WITH CARR ARCHITECTS

Situated on one of Melbourne's best streets as it curves beside the Yarra River, and beautifully finished in natural stone, Heyington is cultivated by its natural environment.

Boasting rich authenticity of limestone and the lightness of glass surrounded by leafy landscapes, the private walled gardens and terraces are immersed in views. At Heyington, each home has the character and unique features of a traditional house, delivered in the context of high-end modern residence.

AN EVENING OF 'DESIGN AND WINE'

We recently had the pleasure of hosting an evening of 'Design and Wine' at the Heyington display suite with Toorak Cellars and Carr, sharing their extensive knowledge on the architecture and interior palette of Heyington, while experiencing a taste of its lifestyle.

The evening flowed with french wine tasting as guests mingled and were informed about the unique partnership with local favourite, Toorak Cellars. Not only will purchasers be able to upgrade to an integrated wine fridge, they'll be offered a handful of wine perks, including a complimentary sommelier consultation, up to a dozen complimentary wines to act as a feedback loop on preferences and VIP privileges in-store.

AN INSIGHT TO THE DESIGN OF HEYINGTON

With Sue Carr, the Principal of Carr, alongside Director of Architecture Chris McCue, and Associate David Brooks, an insight to the thought process behind the design of Heyington was revealed on the night.

TAILORING AN OFF THE PLAN APARTMENT TO SUIT YOUR NEEDS

"There are always ways we can tailor the designs to facilitate exactly what purchasers want to do in the apartments. Heyington residences are all three-bedroom apartments but there are options to have a working study in place of one of the bedrooms or to break through the two bedrooms to make a larger retreat space. These are conversations we like to have as they help customers see how they will be living in the space." - Chris McCue

SIMPLIFY YOUR LIFE THROUGH DESIGN

"The approach we take is all about simplicity. We live in a crazy world so it is even more important to create spaces that have that tranquillity and sense of retreat, where you can just hang out and be still. Whether you are a downsizer or a young family, it's all about living within the space. We recommend our clients to invest in one of two great pieces; find something that is practical, has the function that you want and has the beauty and sense of place. That is when you can start to get all that stuff off your back and simplify your life.

"That is behind the magic of beautifully detailed architecture, it means you don't have to do much inside because the space is already as such; it can stand on its own." - Sue Carr.

DRAWING INSPIRATION FROM THE STREETScape

"Heyington Place is so appealing in that traditionally, these large houses are inviting and warm. We followed this through the textured material in the building's architecture and interior palette. Simplicity refined detailing was carried throughout Heyington, which gives a sense of calm." - David Brooks
